

June 2, 2025

Dear Valued Partner,

The entire global market, as well as Graco, are experiencing sustained inflationary challenges including cost pressures from raw material and higher component sourcing costs. Graco continually works to mitigate these types of challenges and will continue to do so.

However, to maintain the standards of quality, support and customer service we have committed to within the industries we serve, Graco will be executing a list price adjustment on select products. This change will be effective Monday, September 1, 2025.

The details of these changes are listed below:

- Increased list prices will apply to orders placed beginning Monday, September 1, 2025.
- Pricing for 2025 will be held on orders that have been placed - and that have cleared credit review - by 12:00 Midnight CT on Sunday, August 31, 2025. No future orders will be allowed.
- Configured and engineered systems orders must be submitted to Customer Service prior to Friday, August 15, 2025, and must clear credit review by 11:59pm CT on Friday, August 29, 2025.
- Graco reserves the right to manage large stocking orders placed in August to ensure product availability for all customers. Large orders unable to ship prior to the deadline may be subject to repricing at the increased rate.

Thank you for your ongoing support of Graco products. We look forward to continuing mutual success for the remainder of 2025 and beyond. If you have any questions regarding the list price changes, please contact your Graco account manager.

Regards,

Dave Thompson - President, Global Contractor Division

Peter O'Shea - President, Global Industrial Division
