

March 20, 2026

Dear Valued Customer,

We are writing to provide advance notice of material price increases effective **April 20, 2026**. Recent disruptions within the chemical supply chain have tightened the availability of key raw materials, contributing to continued volatility in input costs. At the same time, broader market conditions, including ongoing supply chain disruptions and elevated fuel and transportation expenses, have further increased the cost of producing and delivering our products to market.

We have worked to mitigate these impacts where possible; however, the current environment requires us to take this action.

As a result, the following adjustments will be implemented:

- **10% price increase on all spray foam insulation products**

All orders shipped on or after **April 20, 2026**, will be invoiced at the new pricing. Updated price lists will be distributed shortly. Should you have any questions or require further clarification, please contact your sales representative.

We value your business and appreciate your continued partnership with Carlisle Spray Foam Insulation as we navigate these conditions together.

Regards,
