## Price Increase Announcement

To Our Valued Customers,

Due to inflationary pressures, SWD Urethane will implement a price increase of up to 12% on all products for wall and roof applications. This increase will be effective on April 20th, 2026, and will apply to all shipments on or after that date. To ensure fair and equitable supply, SWD reserves the right to limit purchase quantities prior to the effective date of this increase.

Unless otherwise specified, all quoted pricing is based on full truckload quantities. Therefore, freight charges will apply to less-than-full-truckload orders unless material is picked up directly from our Mesa, AZ plant or one of our designated distribution centers.

Your sales representative will be reaching out to provide updated pricing.

Please note that SWD also reserves the right to adjust pricing at any time based on market conditions, changes in raw material costs, or other factors.

SWD Urethane remains committed to delivering exceptional product quality, industry-leading service, and ongoing support to help grow your business. We sincerely appreciate your partnership and understanding in addition to the trust you place in us as your manufacturer of choice.
