Date: April 1, 2026

Dear Valued UPC Customer,

We hope this message finds you well. We are reaching out to inform you of an upcoming change in pricing for our polyurethane products.

Our industry is currently experiencing raw material price increases, growing fuel and transportation costs, as well as supply concerns with raw material availability that are greatly impacting our ability to operate at our current rates.

We are working diligently with our suppliers to minimize disruptions of our UPC spray foam materials to our customers, but unfortunately UPC must implement a price increase of up to 12% per pound effective on all orders shipped after April 15, 2026.

Your UPC sales representative will be reaching out to provide your future updated pricing.

Should you have any questions, please reach out to your sales rep as we navigate this challenging time in our industry.

We remain committed to providing you with high-quality products and excellent service. We greatly value your partnership and appreciate your understanding and continued support.

Sincerely,

*Jason Spillers*
